3 DAY LECTURE COURSE

This course is based on the EPA – APTI Course #454 entitled Effective Permit Writing and is designed to provide hands-on training in the methods and procedures used to draft and review air permitting documents. This course is designed for personnel of State and local permitting agencies who are new to permit programs and for inspectors who must read and interpret permit conditions. Examples of various types of permit conditions are presented along with practical exercises.

The course is geared to those in an engineering/scientific background or successful completing of any fundamentals of air pollution course and 6 months of general air pollution experience.

DAY 1 - *Identification of the components of permits*

DAY 2 - *Characteristics of effective permits.*

DAY 3 – *Approaches in writing permit documents*
